How to Update Your Rocket Firmware?

Step 1

Be sure that your Rocket is connected via USB to your computer directly,
without any USB Hub or other hardware.
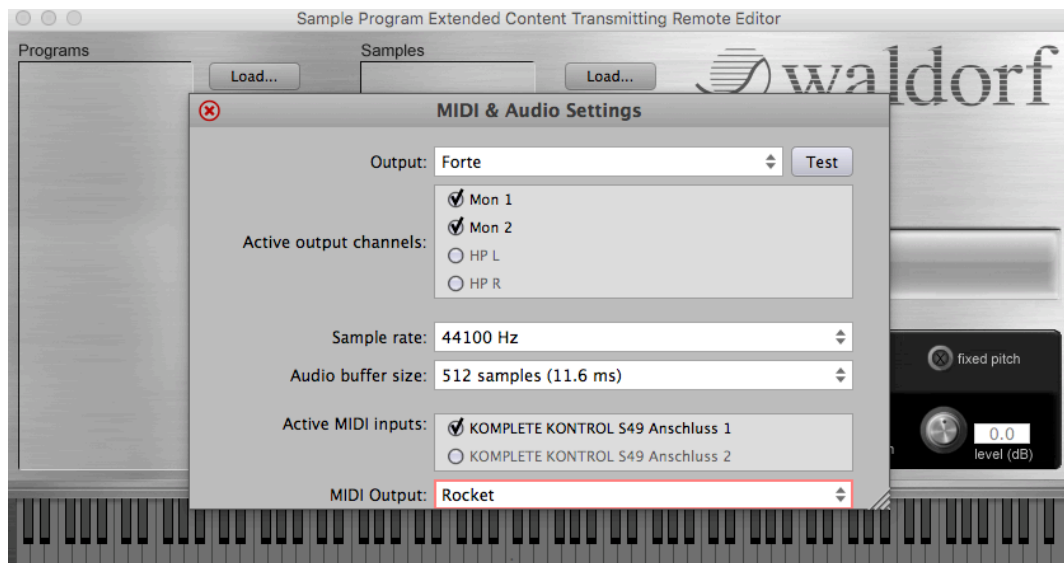

Step 2

Download the Waldorf Spectre App.
https://support.waldorfmusic.com/products/Rocket

Install Spectre in your applications folder. Download the latest firmware.
https://support.waldorfmusic.com/products/Rocket
Unzip the firmware.

Step 3

Launch Spectre. Click "Audio/MIDI" to configure Spectre for your current system.
The important settings is "Midi Output". Here you have to choose your Rocket.

Close the MIDI & Audio Settings window.

Step 4

Click "Upgrade" and choose the Folder and Firmware
you have downloaded and click Open.

Wait till the Update transmission is ready.
That's it, have fun with your Rocket !

Best Regards, Your Waldorf Team.
